

Acoustic bloc screens

Panel that combines 360° flexibility, ecology and soundproofing in a completely innovative way with the aim of improving the acoustic comfort of work and relaxation environments.

Thanks to its non-constant section linear structure, the panel reacts dynamically to sound absorption and makes it possible to create spaces in total freedom.

In addition to being a highly advanced panel, it is also an innovative material selected by Stealthy Wood.

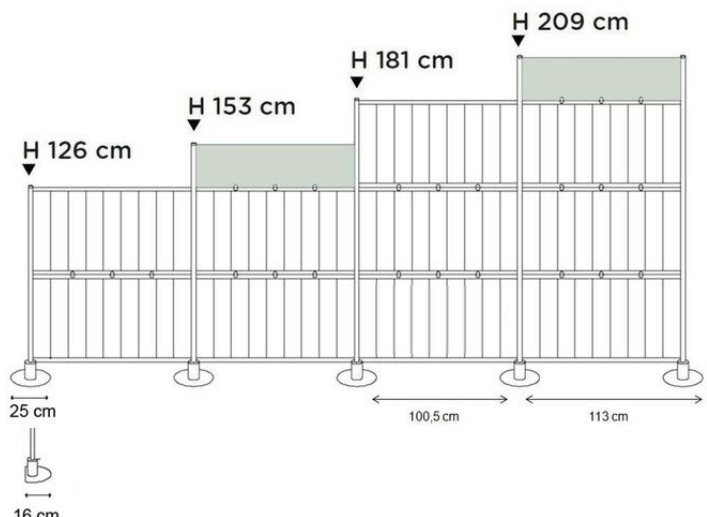

Measurements

Length: 100,5 cm or 113 cm.

Width: 16 cm.

Possible Heights: 126, 153, 181 or 209 cm.

Max. load: 50 kg

Colors

Available in 18 colors

Great Materials

Interior

Sound-absorbing material (absorbs reverberation) made of 100% recycled polyester fibers

Fire Reaction

Class 1 (according to standard NFP 92-501, equivalent to M1 classification)

Smoke Emission

F1 (according to standards NF F16-101 and NF F 16-10: non-toxic)
